# Questions for your clinician

Choose the questions that matter most for your visit with Dr. Eduardo Jacques or another clinician.

## Prevention and screening

- Which prevention steps are most relevant to my circumstances and priorities?
- Does my family history make a genetics or high-risk discussion useful?
- What screening conversations may be appropriate for my anatomy, age and health history?
- Do any symptoms I have need assessment?
- Would a PSA discussion be useful? What are the possible benefits, uncertainties and harms?

## Results and follow-up

- Who will receive the result, who will contact me, and what time frame should I expect?
- What will happen if the result is normal, unclear or abnormal?
- What should I do if I do not hear back in the agreed time?
- If I have had cancer, who is responsible for follow-up and survivorship care?
- What supportive services or navigators are available in Ontario?
