Ontario and Toronto COPD resources

A navigation guide for Health811, respiratory education, rehabilitation and medication coverage.

Version	1.0	Publication date	20 November 2026
Last clinically reviewed	20 November 2026	Medical reviewer	Dr. Eduardo Jacques
Status	Clinically reviewed for publication	Privacy	No PHI fields, uploads or data storage

General health information only. This guide does not diagnose a condition or replace an assessment by a qualified clinician.

Start with Health811

Ontario Health811 offers free, secure and confidential nurse advice and service navigation by calling 811 or using the online service. It is not a replacement for 911 during an emergency.

Respiratory education and rehabilitation

The Lung Health Foundation provides COPD education, a Lung Health Line and information about respiratory educators and pulmonary rehabilitation. Ontario Health's COPD quality standard and clinical handbook describe the importance of rehabilitation and coordinated follow-up, while local availability and referral rules vary.

Coverage questions

- Ask whether the physician or hospital service is medically necessary and OHIP-insured.
- Ask whether pulmonary rehabilitation or respiratory education is publicly funded, program-dependent or privately paid.
- Ask a pharmacist whether an inhaler is listed under ODB, OHIP+, Trillium or an Exceptional Access pathway.
- Confirm eligibility, wait times, referral requirements and fees directly before travelling.
