Erectile dysfunction: questions for a clinician

Conversation prompts for a confidential visit

General health information only. This page does not diagnose a condition or replace an assessment by a qualified clinician.

Version 1.0 · Publication date: 20 November 2026 · Clinically reviewed by Dr. Eduardo Jacques

Conversation prompts for a confidential visit. They are not a self-assessment.

Questions for Dr. Eduardo Jacques

1. Could cardiovascular or metabolic health be connected?
2. Could a medicine, supplement, alcohol, nicotine or another substance contribute?
3. Should we discuss desire, pain, ejaculation, urinary or hormone symptoms?
4. Would examination or selective testing help?
5. Which treatment classes are safe with nitrates or alpha-blockers?
6. Could counselling, sex therapy or pelvic rehabilitation help?
7. When would urology, cardiology, endocrinology or another referral be considered?
8. What symptoms need emergency care, and when should we review the plan?

Safety prompt

If you have a painful erection that persists or lasts 4 hours or more, call 911 or attend the nearest emergency department.
